

TR125 Manual TR125 Manual 250 Top Rollers

The ROEQ TR125 Manual is a manually adjustable top roller, developed for the MiR100/200 or 250, to carry out scheduled pick-up and delivery tasks between stationary conveyor stations.

All ROEQ top modules come with ROEQ Assist software that includes setup tools, making it easy for you to quickly get your solution up and running. The software creates missions and sets the robot footprint.
